Ww

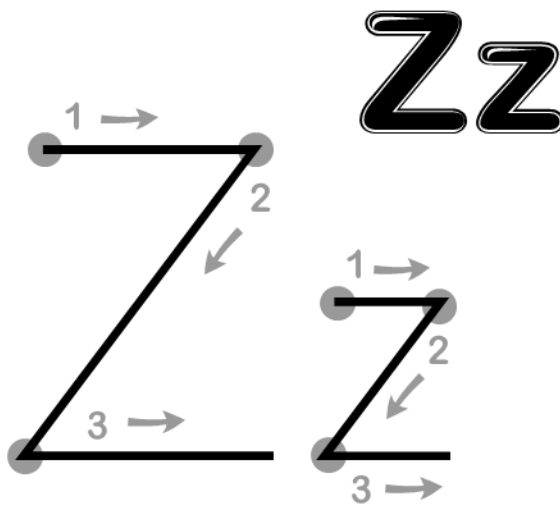

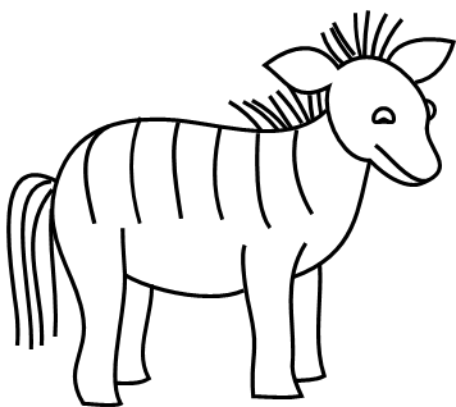

Tracing guide for uppercase X and lowercase x. The uppercase X is formed by two straight lines crossing, with arrows and numbers 1 and 2 showing the stroke order. The lowercase x is formed by two curved lines crossing, also with arrows and numbers 1 and 2. To the right is a drawing of a spiral staircase and the letters 'Xx' in a bold, outlined font.

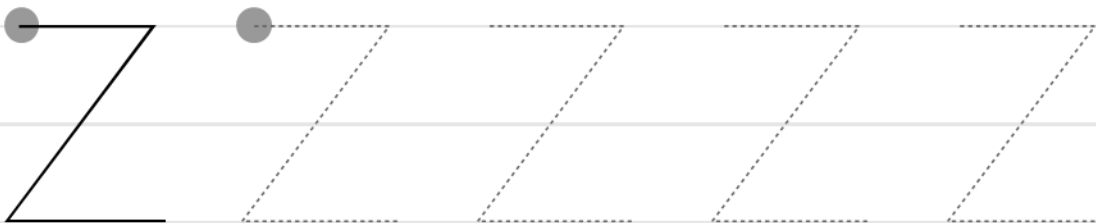

Tracing practice lines for uppercase X and lowercase x. Each row contains a solid example followed by several dashed versions for tracing.

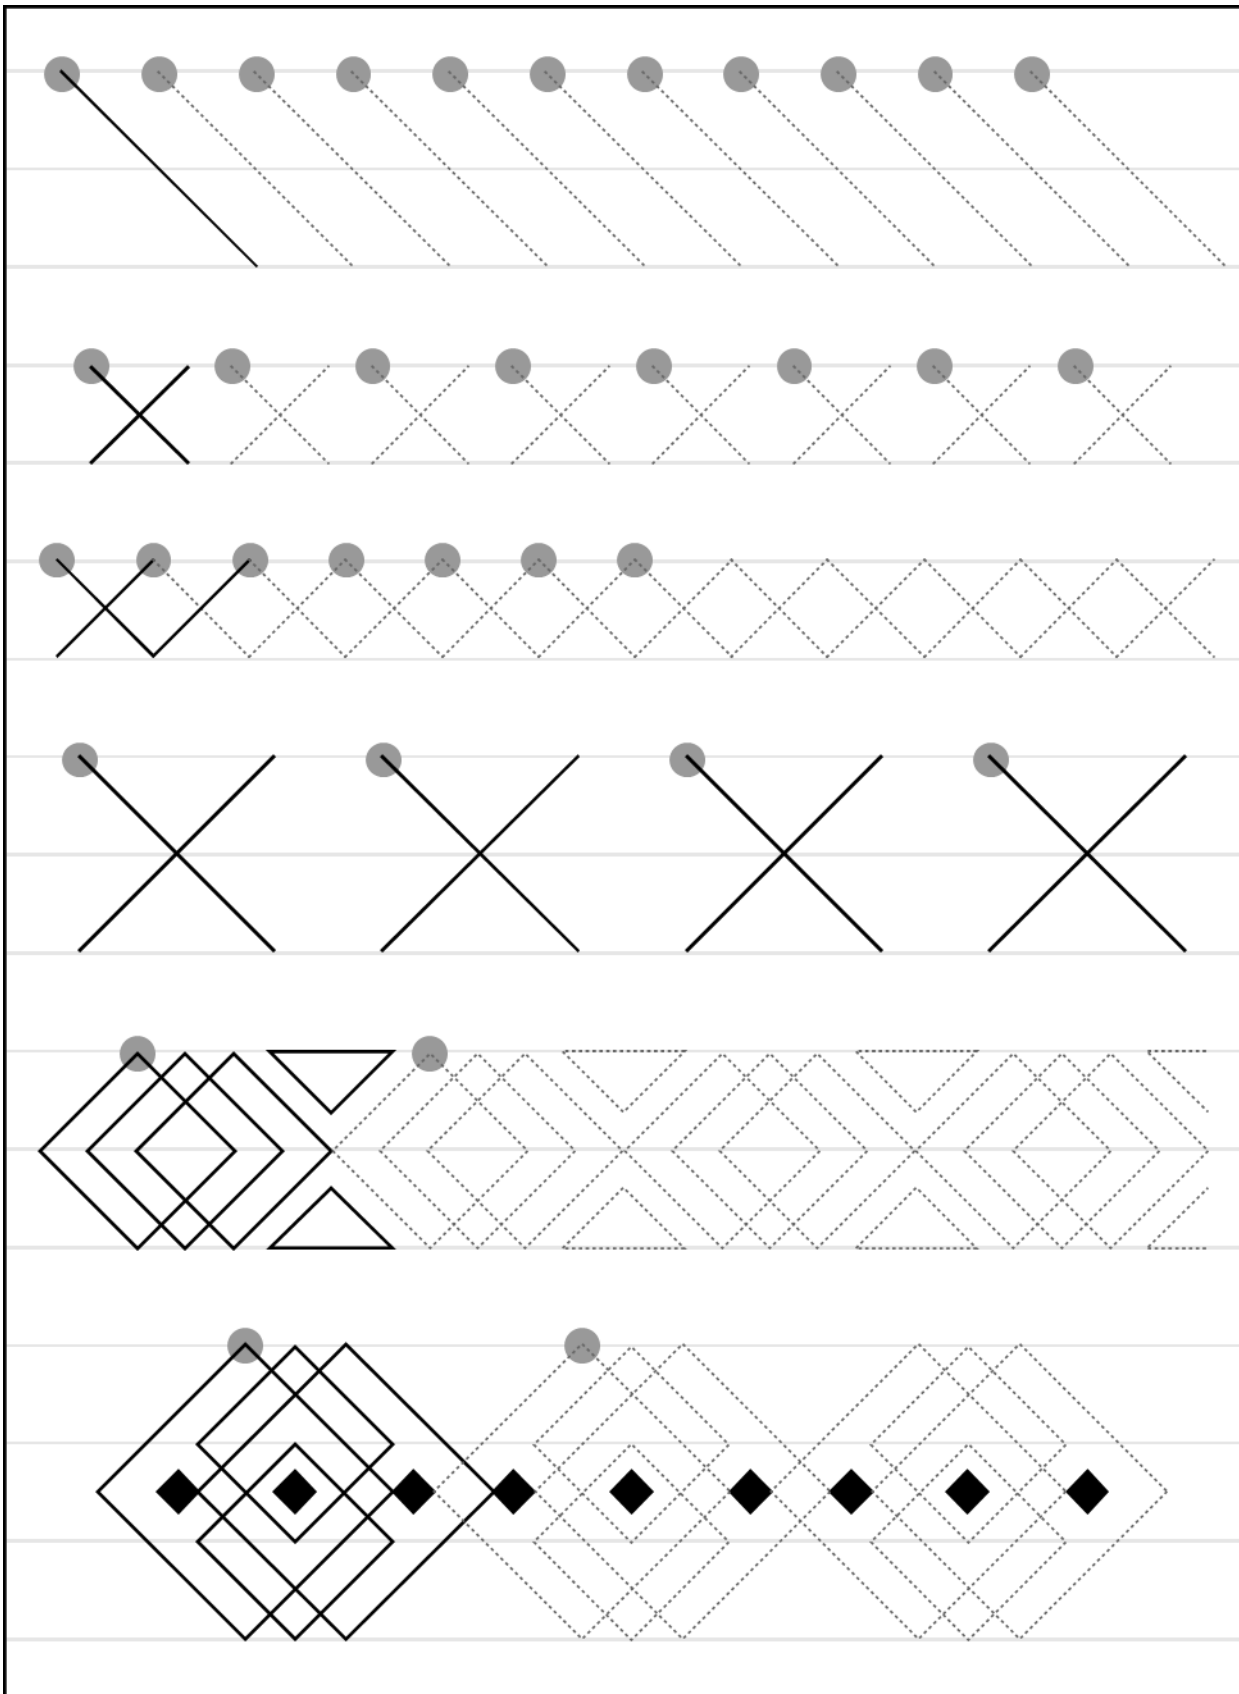

The page is a handwriting practice sheet for the letter 'Y'. It features several sections:

- Top Left:** Large, bold letters 'Yy'.
- Top Center:** A line drawing of a boat moving to the right, leaving a wake.
- Top Right:** Stroke order diagrams. For uppercase 'Y', stroke 1 is the top-left diagonal line down, stroke 2 is the top-right diagonal line down, and stroke 3 is the vertical line down from the center. For lowercase 'y', stroke 1 is the vertical line down, stroke 2 is the left curve, stroke 3 is the right curve, and stroke 4 is the tail curve at the bottom.
- Middle Section:** A row of tracing guides for uppercase 'Y'. The first 'Y' is solid with a starting dot and arrows. The following five are dashed for tracing.
- Bottom Section:** A row of tracing guides for lowercase 'y'. The first 'y' is solid with a starting dot and arrows. The following seven are dashed for tracing.
